

DuPont State Recreational Forest LEARN-AND-BURN

We Will:

- Observe a controlled burn in action
- Learn about shortleaf pine restoration and the wildlife habitat benefits of controlled burns
- Discuss cost-share programs
- Start the discussion about what it takes to burn your own land

YOU ARE INVITED

We welcome forest landowners in the Southern Blue Ridge mountains to join us for an educational workshop and technical training on how controlled burns can help restore habitat for native species.

Saturday March 28
Backup Date: April 4
9:00 - 4:00

High Falls Picnic Area
89 Buck Forest Road, Cedar Mountain, NC 28718

Join us to learn how to be a part of restoring native species habitat in your community!
